(305) 414 9289 - hire@aaronmolina.me - Miami, FL

www.aaronmolina.me | linkedin.com/in/aaronmolinag | github.com/aaronm-git

SKILLS

HTML5, CSS3, JavaScript, jQuery, Node.js, Express.js, MongoDB, AWS (S3 Buckets, EC2, RDS, and Route 53), Google Cloud Platform (Firebase, Firestore, Cloud Functions, Cloud Storage), WordPress, Git, Photoshop, Responsive Design, MVC Architecture, REST APIs, and more…

PROJECTS More at www.aaronmolina.me

Ripple Platform - https://app.ripple-platform.com - https://github.com/aaronm-git/rippleplatform

Pool Service CRM Software. Manage clients, service routes, and client jobs, all from one platform. Keep track of pool technicians by requiring techs to log pool vitals on every visit, through their limited access accounts. Pull weekly reports to better understand your client's swimming pools, business metrics, and more…

YuGiOh! Card Database - https://www.aaronmolina.me/yugiohdb-react-firebase-app - https://github.com/aaronm-git/yugiohdb-react-firebase-app

A Reactjs App utilizing Google's Firebase Cloud Firestore (NoSQL database), Cloud Functions, and Cloud Storage to host cards from my favorite collectible card game, YuGiOh!

FlyingAcademy Website - https://flyingacademy.com

HTML5, CSS3, JavaScript, jQuery, Foundation 6 framework, Vertical Rhythm Theory, WordPress, Google Maps API

EXPERIENCE

Full-Stack Developer   OCT 2019 - PRESENT (7+ months)

Florida Swimming Pools LLC   Miami, FL

Managed, developed, and launched a Pool Service Company CRM System to help business owners to manage their team and log important information about their customer's swimming pools such as pool chemical readings.

Full-Stack Developer   JAN 2019 - OCT 2019 (10 months)

Uplyft Capital   North Miami, FL

Helped CTO code, launch, and maintain proprietary software for a financial lending company. Used MVC architecture, Node, Express, MongoDB, javascript, jquery, created and managed REST API with jsForce to connect to Salesforce API, and with other lenders. A REST API which is now generating revenue from disqualified leads through referral.

Front-End Web Developer   FEB 2018 - DEC 2018 (11 months)

Flying Academy   Miami, FL

Translation of the UI/UX design wireframes and Adobe XD files to actual code using web development best practices: HTML5, CSS, Responsive Design, Vertical Rhythm Theory, PHP, WordPress, Theme Development, Foundation 6 and more…
