EXPERIENCE

Full-Stack Developer   OCT 2019 - PRESENT (6+ months)

Florida Swimming Pools LLC   Miami, FL

Managed, developed, and launched a Pool Service Company CRM System to help business owners to manage their team and log important information about their customer's swimming pools such as pool chemical readings.

Full-Stack Developer   JAN 2019 - OCT 2019 (10 months)

Uplyft Capital   North Miami, FL

Helped CTO code, launch, and maintain proprietary software for a financial lending company in North Miami Beach. Used MVC architecture, Node, Express, MongoDB, javascript, jquery, create and manage REST API, jsForce to connect to Salesforce API, and more…

I've learned to connect to 6 different partner APIs that the company is using today to generate extra revenue for deals that they cannot fund.

Frontend Developer   FEB 2018 - DEC 2018 (11 months)

Flying Academy   Miami, FL

Helped CTO code, launch, and maintain proprietary software for a financial lending company in North Miami Beach. Used MVC architecture, Node, Express, MongoDB, javascript, jquery, create and manage REST API, jsForce to connect to Salesforce API, and more…

I've learned to connect to 6 different partner APIs that the company is using today to generate extra revenue for deals that they cannot fund.
